March 24, 2009

Tricia Voigt and Katie Field of Domani Salon & Spa were proud to host John Allan, founder of the John Allan's club for men's hair services and creator of the men's product line, for an impromptu meeting and tour of Domani's facilities this past Tuesday.

Team Domani brought on the exclusive product line in December 2008 after meeting John Allan in Madison. "His philosophy on the men's grooming business is what really drew us to the line," states Voigt when asked why JA's was the right fit for Domani Salon & Spa. "Everything we do here at Domani is meant to be a full experience, rather than just a salon or spa service. John Allan offers the "full service" to each of his clients in New York. This is something we want to be able to bring to area men as well."

John Allan's has a product to meet every grooming need that a man has, from hair styling to shaving. The shampoos and other wash products even take the guesswork out of showering. Domani Salon & Spa is proud to be one of only 250 salons nationwide to offer the line.

Team Domani will be training one-on-one with John Allan at his newest club on Michigan Avenue in Chicago later this spring. The team is very excited to join John Allan's knowledge and their exceptional talent to offer the very best in men's grooming at their salon in Watertown.
